

Window for School (K-12) Immunizations

How to Use this Window:

Place the window over the date boxes on the child's blue card. Immunization requirements are met if there are dates in each window opening. See also notes at right.

How to Use this Window:

Place the window over the date boxes on the child's blue card. Immunization requirements are met if there are dates in each window opening. See also notes at right.

Notes:

- The California School Immunization Law requires that all children entering your school have their immunizations. To do this, you will need to:
 - Ask parents to present their child's Immunization Record;
 - Record all of the child's immunization dates on a blue card (the California School Immunization Record, CDPH 286);
 - Determine if the child has had all the immunizations required.
- When a birthday is specified, a date up to 4 days before the birthday is O.K.
- Either immunization date(s) or a permanent medical exemption from a physician (that patient has had disease) meets the varicella requirement.
- Supplies of the blue card are available free from local health departments.

Immunization Requirements:

- Polio:** Four doses. Three doses also meet requirements if at least one dose was given on or after 4th birthday for ages 4-6 years or on or after 2nd birthday for ages 7-17 years.
- DTP:** Five doses. Four doses also meet requirements if at least one dose was given on or after 4th birthday for ages 4-6 years. Three doses meet requirements for ages 7-17 years if at least one dose was given on or after 2nd birthday.*
- MMR:** Two doses meet requirements (both given on or after the first birthday) for ages 4-6 years and for students advancing or being admitted into 7th grade. One dose meets requirement for ages 7-17 years not being admitted or advancing into 7th grade.
- Hib:** Three doses. Requirement applies only to admission at ages 4-6 years.
- Hep B:** One dose meets requirements for students admitted at age 4 through 12 years. Two doses meet requirements for students admitted at age 13 through 17 years.
- Var:** One dose meets requirements for students admitted at age 4 through 12 years. Two doses meet requirements for students admitted at age 13 through 17 years.

Is there a date in each space?

Yes: Child can be admitted.

No: Child may need vaccine dose(s). Advise parents if a dose(s) is needed.

Conditional: Child can be admitted if he/she is currently up-to-date, but their next dose(s) are not yet due. Please refer to shotsforschool.org for more details.

Notes:

- The California School Immunization Law requires that all children entering your school have their immunizations. To do this, you will need to:
 - Ask parents to present their child's Immunization Record;
 - Record all of the child's immunization dates on a blue card (the California School Immunization Record, CDPH 286);
 - Determine if the child has had all the immunizations required.
- When a birthday is specified, a date up to 4 days before the birthday is O.K.
- Either immunization date(s) or a permanent medical exemption from a physician (that patient has had disease) meets the varicella requirement.
- If student is being admitted to the 7TH-12TH grades, a pertussis-containing vaccine (e.g., Tdap) is required prior to admission.
- Supplies of the blue card are available free from local health departments.

	(1st)	(2nd)	(3rd)	(4th)	(5th)
Polio					← Four doses. Three doses also meet requirements if at least one dose was given on or after 4 TH birthday for ages 4-6 years or on or after 2 ND birthday for ages 7-17 years.
DTP					← Five doses. Four doses also meet requirements if at least one dose was given on or after 4 TH birthday for ages 4-6 years. Three doses meet requirements for ages 7-17 years if at least one dose was given on or after 2 ND birthday.*
MMR					← Two doses meet requirements (both given on or after the first birthday) for ages 4-6 years and for students advancing or being admitted into 7 TH grade. One dose meets requirement for ages 7-17 years not being admitted or advancing into 7 TH grade.
Hib					
Hep B					← Three doses. Requirement applies only to admission at ages 4-6 years.
Var					← One dose meets requirements for students admitted at age 4 through 12 years. Two doses meet requirements for students admitted at age 13 through 17 years.

► Is there a date in each space?

Yes: Child can be admitted.

No: Child may need vaccine dose(s). Advise parents if a dose(s) is needed.

Conditional: Child can be admitted if he/she is currently up-to-date, but their next dose(s) are not yet due. Please refer to shotsforschool.org for more details.

* If student also has had Tdap [see Tdap sticker CDPH 286 S], the Tdap dose can count as one of the doses for admission at age 7 years or older. See also Note 4.
